[Municipalities of Xinzo de Limia, Lobios \(Spain\) and](#)

Since the Aalborg +10 conference in Aalborg 2004 more than 550 local governments have signed to the Aalborg Commitments and the number is still increasing. I am very delighted about the massive support which shows that the Aalborg Commitments is a very useful tool for local governments to address the challenges of sustainable development.

In March 2007 we meet in the City of Seville to the Fifth European Conference on Sustainable Cities and Towns. I'm very happy about that this conference enthusiastically promoted the Aalborg Commitment process and gave us an insight of the progress and achievements in local sustainable development in Europe, and on the implementation of the Aalborg Commitments.

The adoption of the "[Spirit of Seville](#)", underlines an ever stronger mandate to implement sustainable development and the Aalborg Commitments in local governments.

At this web site you will be able to request for signature of the Aalborg Commitments. You will find a variety of information on the Aalborg Commitments e.g. the list of signatories, the Aalborg Commitments document in 18 different European languages, Baseline Review reports, Article signing procedures etc.

You will also find relevant background information on the Aalborg Charter and links to the 5th conference and the European Sustainable Cities and Towns Campaign.

Happy browsing!
