

WORKSHOP

Malaga Smart Community Project
Progress and the Way Forward

WORKSHOP

Workshop on:

Malaga Smart Community Project Progress and the Way Forward
-Sharing experiences of smart community demonstrations in Europe-

The City of Malaga and NEDO are pleased to invite you to the workshop on “Zem2All Project Progress and the Way Forward - Sharing experiences of smart community demonstrations in Europe -” which will be held on December 10th, 2014 in Malaga.

Since 2010, the City of Malaga and NEDO have been jointly promoting a demonstration project for developing a Smart Community in Malaga to achieve a sustainable city with high efficient use of energy.

The project is being implemented by Spanish (Endesa, Telefónica and Ayesa) and Japanese Companies (Mitsubishi Corporation, Mitsubishi Heavy Industries and Hitachi Ltd), and has the support of CDTI (Centre for the Development of Industrial Technology of Spain).

In entering the mid-term of the project this year, the workshop aims to share the key findings and progress of Zem2All project and also share experiences of other smart community demonstrations in different cities of Europe. About 100 participants are expected from Spanish and Japanese key stakeholders involved in the development of smart communities.

Please find below information of the workshop including the draft Agenda and registration details. In light of its significance, we sincerely hope that you will be able to attend this workshop.

Site Tour and dinner will also be provided on the previous day, Tuesday December 9th, in Malaga. Please find the attached details.
